Application: Motorcycle

**RAVENOL FORKOIL Heavy 15W** is a fork oil on mineral oil base which was developed for all forks of off-road motorbikes and motor cross bikes.

**RAVENOL FORKOIL Heavy 15W** is especially characterised by a high and stable viscosity index as well as a solid corrosion protection. Efficient additives offer even under extreme loads an excellent corrosion protection. The behaviour against sealing materials is neutral.

# Application Note

**RAVENOL FORKOIL Heavy 15W** was developed for the use in all chassis components of two-wheeler vehicles and offers good power characteristics. In order to obtain the optimum viscosity for the vehicle and operating condition the mineral fork oils are miscible among each other.

## Characteristics

- good damping characteristics at all temperatures
- a high and stable viscosity index
- an excellent protection against corrosion, therefore a longer endurance of the fork components
- as far as possible protection against corrosion of the inside components
- a very good air and water separation behaviour to prevent foam formation
- neutral behaviour against sealing made of plastics
- a very low pour point
